

Support Us!

Istanbul&i is a youth-led NGO and with the help of angel donors, participants and supporters, we run our community center. If you want to be part of our vision, you can donate and help our dedicated volunteers achieve more!

Our fundraising campaigns

Thanks to generous donors like you, Istanbul&i makes a meaningful and enormous impact on the lives of young people, refugees, and migrants over the last five years. We also survived the COVID-19 pandemic with your support and aim to achieve more with your collective support for another running year! Over the past five years, you have put your trust in us and we will appreciate your support in the future too.

Support the Youth4Youth Mentorship Program in Istanbul

Now, we are launching the Youth4Youth Mentorship Program. This program will provide services to refugees between the ages of 18-25 and help them build their academic and professional careers, as well as English and Turkish language skills. We need your help!

Donate Now and Help Keep Istanbul&i's Doors Open!

The COVID pandemic hit us hard. While we have been able to move most of our programs online, our in-person events are no longer possible, leaving us unable to fundraise at the rate we have in previous years. Without sufficient funding, in the next three months we will have to shut our doors to our community members who rely on our social programs and the safety our community center provides.

Istanbul&i - Working towards a more inclusive world for all!

We have done so much with so little, but we know that to move Istanbul&i to the next stage as an organization, we need support for capacity building. Currently, we have one paid staff member

overseeing our entire volunteer structure of 250 volunteers and dozens of daily and weekly projects. We know that by hiring a small management staff, we

can focus on greater development and training that would serve the community and beneficiaries for years to come. We will invest your donations into an active staff who organize vital capacity

building like safeguarding training, onboarding and offboarding processes, and monitoring and evaluation processes. This will make us even more attractive to large scale grants and funding that will help us become a

sustainable organization.

2018-2019
